Invitation to the next Humboldt Evening**New technology nanomaterials: from beauty to function**

Liebe Humboldtianerinnen, liebe Humboldtianer,
Dear Humboldtians, dear colleagues,

It is my great pleasure to invite you to our next Humboldt evening. The evening will be organized by Rainer Adelung and his team. The team just has received a great deal of international recognition by producing "Aerographite", the lightest material in the world. The Kiel-team will give us an introduction into their research. In addition we will have the honour to listen to Prof. Tiginyanu, Director at the National Center for Materials Study and Testing at the Technical University of Moldova.

As always, the Humboldt evening will be a good opportunity for an informal get-together. I truly hope that you will participate.

**Thursday, November 1st, 2012, 18.00 h,
Kaiserstr. 2
Technische Fakultät der CAU, Bld. D "Aquarium"**

Preliminary Program

- | | |
|-----------|---|
